Welcome Message

Freedom Mukanga

Founder and CEO

Welcome to FreedPer Scientific!

At FreedPer Scientific, we are passionate about driving innovation and excellence in meteorological and hydrological solutions. Since our inception, we have been dedicated to empowering industries, communities, and institutions with state-of-the-art instruments and services that foster sustainable development, climate resilience, and informed decision-making.

Our commitment goes beyond supplying equipment—we aim to build long-lasting partnerships and provide reliable solutions tailored to meet your unique needs. Whether it's advancing weather observation networks, enhancing disaster preparedness, or supporting research and education, we are here to ensure success at every step.

Thank you for choosing FreedPer Scientific as your trusted partner. Together, we can shape a future where data-driven solutions pave the way for a resilient and sustainable world.

About Us

Vision

To be the leading provider of innovative meteorological and hydrological solutions, driving sustainable development and climate resilience across Sub-Saharan Africa.

Mission

FreedPer Scientific is committed to equipping economic and social sectors with state-of-the-art meteorological, hydrological, and related instruments, delivering reliable solutions to support sustainable development and informed decision-making.

Core Values

1. Innovation

- Driving progress by introducing cutting-edge meteorological and hydrological solutions that meet global standards.

2. Quality

- Delivering durable and reliable products and services that exceed client expectations and stand the test of time.

3. Customer-Centricity

- Prioritizing the needs of clients through personalized support, user training, and exceptional service delivery.

4. Sustainability

- Promoting environmental stewardship and climate resilience through sustainable and impactful solutions.

5. Collaboration

- Building partnerships with global leaders, local stakeholders, and communities to enhance impact and accessibility.

Company History

FreedPer Scientific, registered as FreedPer Investments Private Limited in 2019 in Zimbabwe, officially launched in 2022 at Gateway Primary School. The launch coincided with a training session on using meteorological instruments and the handover of a weather station to the school. However, our journey began much earlier. From 2013 to 2018, we operated under the banner of Earlycap Enterprises Pvt Ltd, providing meteorological equipment to businesses in diverse sectors such as mining, energy, academia, and agriculture.

During this period, we serviced notable clients including Zimplats, Zimbabwe's largest platinum miner; the UNDP and Ministry of Environment, Water and Climate; Chispite Senior School; Farai Primary School; and the Zimbabwe Sugar Association Experiment Station (ZSAES).

Our first milestone project was in 2013 when we installed a standard weather station at Chiredzi Primary School. This project, undertaken without prior trade references, showcased our commitment and capability. Located in the hot town of Chiredzi, 440km (273 miles) south of Harare, the school was equipped with a Stevenson screen, raingauge, measuring cylinder, cup anemometer, wind vane, hygrometer, and Six's thermometer. A decade later, the instruments remain functional, reflecting the durability of our products.

Since then, FreedPer Scientific has revolutionized Zimbabwe's meteorological industry. We introduced the World Meteorological Organization (WMO) standard 127mm brass ring rain gauge, manufactured with durable fiberglass material, into the local market. Our growth has been further bolstered by distributorship agreements with global leaders in meteorological and hydrological instrument manufacturing. Today, we proudly export across Sub-Saharan Africa, expanding our impact on the region's meteorological and hydrological capabilities.

Key Achievements

International Awards

Freedom Mukanga, Founder and CEO of FreedPer Scientific, won the 2025 Leadership Impact Award under the Mandela Washington Fellowship, a U.S. Department of State-sponsored leadership program. He is also a recipient of the International Entrepreneurship Impact Award from the University of Iowa's John Pappajohn Entrepreneurial Center, USA.

Recognition from the World Meteorological Organisation (WMO)

Our Child-Centred Climate Services case study was featured by the WMO on its global ArcGIS Interactive Map, recognizing our leadership in inclusive climate education and early warning systems. Soft-launched at COP30 in Brazil, the profile highlights efforts to equip schools with weather stations, train teachers, and integrate real-time data into learning.

Local and International Partnerships Forged

We are in strategic partnership with QUPA Microfinance a subsidiary of ZB Financial Holdings and BancABC in Zimbabwe to expand access weather instruments Internationally, we collaborate with Synoptic Data for seamless weather data integration and partners with leading hydrometeorological instrument manufacturers, including AEM (USA) and GARMIC (Germany).

Our Products

FreedPer Scientific offers a wide range of high-quality meteorological and hydrological instruments. Designed for accuracy and durability, our products support weather observation, climate analysis, disaster preparedness, and sustainable development across various sectors.

Automatic Weather Stations

Manual Weather Instruments

Hydrological Instruments

Autographic Instruments

Our Services

FreedPer Scientific provides end-to-end solutions in meteorological and hydrological instrumentation, including expert siting consultancy, professional installation, commissioning, and hands-on training. We ensure accurate equipment placement and reliable system performance aligned with recognized standards. We also work closely with schools, children, and communities to strengthen STEM education and promote citizen science. Through practical learning and participatory environmental monitoring, we empower institutions and communities to generate quality data, build climate awareness, and maximize the value of their investment.

Our Partners

Working With the Best

Customer Testimonials

Care International Zimbabwe

"Throughout the project, they demonstrated exceptional professionalism, meticulous attention to detail, and efficient logistical coordination, ensuring full compliance with specified standards.."

Gateway Primary School

"Having a Weather Station in our school is a brilliant idea. Our learners will now be able to understand weather concepts better."

African Development Bank

FreedPer Scientific delivered all equipment within the stipulated 21-day period, adhering to specified standards and demonstrating excellent professionalism, attention to detail, and efficient logistics.

To Whom It May Concern,

REF: Reference Letter for Freed Per Scientific

This is to confirm that Freed Per Scientific successfully executed **Contract No. 3171** for the supply of an Automated Weather Station for the ECHOHIP Project. The contract involved the provision of a **Research-Grade Synoptic Automated Weather Station** with a 10-meter wind sensor. Freed Per Scientific met all project requirements, delivering the equipment within the stipulated period from May to June 2023.

Throughout the process, they demonstrated exceptional professionalism, meticulous attention to detail, and efficient logistical coordination, ensuring full compliance with specified standards.

Based on their proven track record of reliability and high-quality service, we have no hesitation in recommending Freed Per Scientific for similar projects.

Should you require further information, please do not hesitate to contact us.
Sincerely,

Best Regards

Reference Letter for FreedPer Scientific

To Whom It May Concern,

SOS Children's Villages Zimbabwe has worked with **FreedPer Scientific** in the area of **community early warning systems and locally specific weather information**, including the installation and support of weather stations.

Throughout our engagement, FreedPer Scientific has consistently demonstrated strong technical competence, reliability, and a clear understanding of local community contexts. Their team provided valuable technical support and maintained excellent communication and responsiveness whenever support was required.

We have been satisfied with the overall quality of the products and services delivered, which have contributed meaningfully to strengthening community-level preparedness and decision-making through accurate and relevant weather information.

Based on our experience, we confidently recommend FreedPer Scientific to organizations seeking dependable partners in weather monitoring, early warning systems, and related scientific solutions.

Should you require any additional information, please feel free to contact us.

Yours sincerely,

Wellington Pisirai

RE: REFERENCE LETTER FOR FREEDPER INVESTMENTS (PVT) LTD

The above subject matter refers.

We are pleased to confirm FreedPer Investment (Pvt) Ltd's successful execution of Contract No. NSH-MoFED-AfDB-ADRFi 03/2023 under the Africa Disaster Risk Financing Programme (ADRFi) - Capacity Building Project for Zimbabwe.

The contract involved the supply of:

- 130 Rain Gauges (1m pole/stand, 12.7cm collecting bucket, 20mm measuring cylinder).
- 130 Ground Minimum Thermometers (-30°C to 50°C range, alcohol on glass, wooden frame).

FreedPer Investment (Pvt) Ltd delivered all equipment within the stipulated 21-day period, adhering to specified standards and demonstrating excellent professionalism, attention to detail, and efficient logistics.

We recommend FreedPer Investment (Pvt) Ltd for similar projects, given their proven reliability and quality service.

For further inquiries, please feel free to contact us.

Sincerely,
